

Zoha Seher

SOFTWARE ENGINEER

Shiwal, Pakistan | zoha.seher06@gmail.com | +92 3046339247 | github.com/Zoha-Seher09 | linkedin.com/in/zoha-seher

PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building and maintaining Flask-based backend services, integrating REST APIs, and collaborating in Agile teams. Strong foundation in Python, JavaScript, and relational databases, with a growing focus on scalable web application architecture.

TECHNICAL SKILLS

Python • Flask • JavaScript • React.js • SQL & PostgreSQL • Git & GitHub • REST API Development • Problem Solving

EXPERIENCE

Software Engineering Intern

Jun 2024 – Aug 2024

Arbab LABs

- Assisted in developing REST APIs for an existing Django project.
- Working on AI based projects

EDUCATION

BS Software Engineering

2022 – 2026

Virtual University, Pakistan

Major in Software Engineering. Final year project: AI-based résumé screening system using Python and Flask.

Intermediate (ICS)

2020 – 2022

Punjab Group of Colleges

Computer Science group, scored 85% marks.

Matriculation

2018 – 2020

Allied School System

Science group, secured A+ grade with distinction in Computer Studies.

CERTIFICATIONS

- Python for Everybody — Coursera (University of Michigan), 2024
- Flask & REST API Development — Udemy, 2024
- Git & GitHub Fundamentals — freeCodeCamp, 2023

PROJECTS

Personal Portfolio Website

Single-page portfolio built with Python and Flask, featuring dark mode, live GitHub project integration, and a contact form.
github.com/Zoha-Seher09/portfolio-new

AREAS OF FOCUS

- Backend Development — scalable server-side applications with Python, Flask, and Django.
- API Integration — connecting web apps to third-party services.
- Bug Fixing & Code Review — improving code quality and performance.
